

IATG MENTORS

IATG is committed to helping nurture new guides, or even established guides, who might strike a problem and seek input from other experienced guides.

IATG has created a mentoring body of guides who are experienced in many areas, are patient and have a great understanding of the problems faced by guides today.

Our mentors are available to talk through specific guiding problems and advise members how best to handle situations, either for immediate reference or as a future suggestion for a problem they've already encountered.

Angela Turek 0418 283 331
Greg Williams 0412 980 968

IATG wishes to thank the mentors for their contribution to guiding excellence by committing their time free of charge to help other IATG guide members.

To contact the Mentors, members can call them direct to arrange for a convenient time for both parties to chat. Your current IATG membership number is all that is required.
